

Indian Iron & Steel Sector Skill Council

QUALIFICATIONS PACK - OCCUPATIONAL STANDARDS FOR IRON & STEEL INDUSTRY

What are Occupational Standards (OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Contents

1. Introduction and Contacts.....P.1
2. Qualifications Pack.....P.2

Introduction

Qualifications Pack- Conveyor Operation and Maintenance

SECTOR: IRON & STEEL

SUB-SECTOR: Steel, Sponge iron, Ferro Alloys, Re-Rollers, Refractory

REFERENCE ID: ISC/Q0902

ALIGNED TO: NCO -2004/NIL

Title of Job: The job involves inspection of the total belt driving system including the controls of conveyor belt as per the required sequence for feeding different raw materials (coal, lime stone, Iron ore etc.) in the service bunker through crushers/screener etc. This also involves basic maintenance and troubleshooting on Conveyor Belt system.

Personal Attributes: The job requires the candidate to concentrate on the job at hand and complete it efficiently and effectively without any accidents so diligence and hard-working are desired attributes for individuals in this role. Ability to demonstrate strong work ethics, courteous behaviour with co-workers, and must be good with following instructions of the supervisor. Some of the key attributes also includes physical fitness, not having colour blindness and willing to work in factory environment.

Job Details

Qualifications Pack Code	ISC/Q0902		
Job Role	Conveyor Operation and Maintenance		
Credits(NSQF)	TBD	Version number	1.0
Industry	Iron & Steel	Drafted on	09/10/2014
Sub-sector	Steel, Sponge iron, Ferro Alloys, Re-Rollers, Refractory	Last reviewed on	30/12/2014
Occupation	Mechanical Maintenance	Next review date	30/12/2015
NSQC Clearance on	18/06/2015		

Job Role	Conveyor Operation and Maintenance
Role Description	Inspection of the total belt driving system including the controls of conveyor belt as per the required sequence for feeding different raw materials (coal, lime stone, Iron ore etc.) in the service bunker through crushers/screener etc. This also involves basic maintenance and troubleshooting on Conveyor Belt system.
NSQF level	3
Minimum Educational Qualifications	Class 10 th pass
Maximum Educational Qualifications	ITI pass
Training (Suggested but not mandatory)	- On job training for belt operation - Functioning of all basic Mechanical, Electrical Equipments - Maintenance techniques - Safety practices
Minimum Job Entry Age	18 years
Experience	1-2 years' experience in similar function - In lieu of minimum qualification the candidate should have minimum 5-7 years of relevant experience in the similar field/function working under an experienced supervisor as assistant/helper
Occupational Standards (OS)	Compulsory: ISC/N0915: Inspection of total conveyor system along with operating equipments ISC/N0916: Start conveyor belt operation ISC/N0917: Perform basic maintenance and troubleshooting on conveyor belt system ISC/N1005: Carry out reporting and documentation ISC/N0008: Use basic health and safety practices at the workplace ISC/N0009: Works effectively with others Optional: N/A

Performance Criteria	As described in the relevant NOS units

Definitions

Keywords /Terms	Description
Core Skills/Generic Skills	Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the NOS, these include communication related skills that are applicable to most job roles.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of NOS.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Organisational Context	Organisational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
Qualifications Pack(QP)	Qualifications Pack comprises the set of NOS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.

Sub-Sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Sub-functions	Sub-functions are sub-activities essential to fulfil the achieving the objectives of the function.
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Unit Code	Unit Code is a unique identifier for a NOS unit, which can be denoted with an 'N'
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Keywords /Terms	Description
NOS	National Occupational Standard(s)
NSQF	National Skills Qualifications Framework
OEM	Original Equipment Manufacturer
OS	Occupational Standard(s)
QP	Qualifications Pack
5 S	Technique of maintaining orderliness –Japanese terminology
CP	Control Plan
WI	Work Instructions

ISC/N0915: Inspection of total conveyor system along with operating equipments

National Occupational Standards

Overview

This NOS unit involves Inspection of total conveyor system along with operating equipments

Unit Code	ISC/N0915
Unit Title (Task)	Inspection of total conveyor system along with operating equipments
Description	This unit is about going through previous shift log book and preparing the conveyor belt system before operation
Scope	This OS unit/task covers the following: - Conduct pre-operation checks to ensure the Conveyor Belt System is safe for operation - Record details of checking and maintenance activities
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Conduct pre-operation checks to ensure the Conveyor Belt System is safe for operation	To be competent, the user/individual on the job must be able to: PC1. Adhere to time limits given by supervisor PC2. Check oil levels of gear box and prime movers with couplers, driving pulleys PC3. Check driving pulleys with lagging PC4. Check the belt conveyor for any damages and belt joints PC5. Check condition of conveying and return side idlers PC6. Check the cleanliness of conveyor gallery and conveyor deck PC7. Check position of gravity pulleys PC8. Check feeding chutes with wire plates PC9. Check operation of gates PC10. Check all shuttle belts with trolley etc. PC11. Check the level of bunkers to be filled PC12. Apply grease to all bearings PC13. Ensure the raw material stock at bunker and yard PC14. Keep all conveyor gallery and stair cases clean and free from mud, spillage and other foreign materials PC15. Ensure proper illumination of all work area/transfer chutes PC16. Check all safety switches as per schedule PC17. Report defects precisely to the supervisor if beyond scope of his role
Record details of checking and maintenance activities	To be competent, the user/individual on the job must be able to: PC18. Maintain a checking/maintenance logbook to record all activities performed before starting the conveyor system
Element	Knowledge and Understanding
A. Organisational Context (Knowledge of the Company/ Organisation and	The user/individual on the job needs to know and understand: KA1. Job specific documents e.g. daily maintenance checklist and importance of the same KA2. Safety policy of the company KA3. Emergency preparedness of the specific work site

its processes)	KA4. Risk and impact of not following defined procedures/work instructions KA5. Escalation matrix for reporting identified problems KA6. Cost of equipment and loss for the company that result from damage of equipment and direct / indirect cost of accidents. KA7. Implications of delays in process to the company
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Different types of mechanical and electrical equipments with drives KB2. Introduction to gear box, driving system, their use and function KB3. Different types of mechanical and electrical equipments with control system KB4. Principles of conveyor system KB5. Conveyor driving mechanisms and correct way of starting the conveyor belt KB6. Significance of greasing and oiling of mechanical drives that need routine lubrication KB7. Driving panel for maintaining the sequence of conveyor operation KB8. Control switch operation in order to maintain proper belt sequence KB9. Optimal working condition of conveyor operating components e.g. driving motor, gear box, driving couplers including driving pulleys and other attachments KB10. Optimal operating load conditions KB11. Visual checks to identify belt damage, defects, conditions of idlers, belt joints, safety switches etc. beforehand KB12. Trouble shooting in the conveyor belt system
Skills (S) w.r.t. the scope	
Element	Skills
A. Core Skills/ Generic Skills	Writing skills and reading Skills The user/ individual on the job needs to know and understand how to: SA1. Read the work Instructions in an manner that the operators can easily understand the process requirements and process steps SA2. Create small notes/ work documents/ diagrams for supervisors ,operators and helpers to help them understand the process in English, Hindi and Local Language (E/H/LL) SA3. Use emails and other business correspondence methods (internal memos, circular etc.) for communicating with other team members/ vendors/ suppliers etc. SA4. Read equipment manuals and process documents given by the equipment supplier to understand the equipment and processes better
	Oral Communication (Listening and Speaking skills) The user/individual on the job needs to know and understand how to: SA5. Effectively explain supervisors, operators and helpers about equipment operations, process steps and other operational requirements SA6. Answer the queries raised by the operative team as well as intercompany

	departments SA7. Effectively communicate with the operators and helpers and make them aware of work expectations, targets, policies, processes etc. SA8. Discuss task lists, schedules, and work-loads with the operative team members SA9. Attentively listen with full attention the queries and grievances raised by the operative team and comprehend the information given by the speaker
	Integrity The user/individual on the job needs to know and understand how to: SA10. Maintain integrity with respect to company property and time SA11. Communicate with people in a polite manner using respectful language SA12. Resolve difficulties in relationships with colleagues amicably
	Motivation The user/individual on the job needs to know and understand how to: SA13. Take responsibility for completing one's own work assignment SA14. Take initiative to enhance/learn skills in one's area of work SA15. Reflect and act upon one's learning from experience
	B. Professional Skills Time Management The user/individual on the job needs to know and understand how to: SB1. Prioritize and execute tasks within the scheduled time limits
	Analytical Thinking The user/individual on the job should be able to: SB2. Suggest methods to avoid accidents/errors while operating running equipments SB3. Identify possible ways to improve operational efficiency
	Reliability The user/individual on the job needs to know and understand how to: SB4. Avoid absenteeism and maintain quality of work SB5. Work in a disciplined environment and adhere to working norms of the organisation SB6. Be punctual and adhere to timelines
	Organizational Skills The user/individual on the job needs to know and understand how to: SB7. Be a team player and achieve collective goals
	Fault Diagnostic and Maintenance

	The user/individual on the job needs to know and understand how to: SB8. Check for damage of Conveyor belts and other components e.g. gear box components, pulleys, idlers, bunker/chute gates etc. SB9. Provide assistance to maintenance crew during shut down/break down like damaged belt repairing, damaged idler changing, checking and replacing chute wear plates for preventing damage to mother plates.

ISC/N0916: Start conveyor belt operation

National Occupational Standards

Overview

This NOS unit is all about starting conveyor belt operation

Unit Code	ISC/N0916
Unit Title (Task)	Start conveyor belt operation
Description	This unit is about starting the conveyor belt operation
Scope	This OS unit/task covers the following: - Start the conveyor belt in no load condition - Load the conveyor gradually by opening the bunker gates as required - Discharge the material in conveyor chutes by proper adjustment of deflector plate, gate and after feeding equipments
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Start the conveyor belt in no load condition	To be competent, the user/individual on the job must be able to: PC1. Study the log book and organize the job according to requirement PC2. Inspect the worksite to identify cleanliness of the conveyor gallery, walkway and stair cases PC3. Start the conveyor on no-load condition using the pushbutton switch for conveyor sequence operation PC4. Adjust feeding mechanism for optimum loading of conveyor.
Load the conveyor gradually by opening the bunker gates as required	To be competent, the user/individual on the job must be able to: PC5. Ensure the main bunker is filled up to the required level for safe operation PC6. Ensure after filling to specific volume of main bunker the transit bunkers gates to be closed slowly for emptying out the belt PC7. Adhere to time limits given by supervisor PC8. Perform in-operation visual checks on bunker level depending on the requirement for smooth operation. PC9. Select and use the right type of operation for proper feeding of the conveyor belt. PC10. Ensure that conveyor gallery and walkway are free from all hazards for starting the belt operation. PC11. Utilize judiciously various communicating devices available in the conveyor gallery and control cabin. PC12. Ensure that the belt operation is safe from all hazards by raising appropriate signal/alarm PC13. Ensure that the dust extraction/suppression system is working properly during the belt operation.
Discharge the material in conveyor chutes by proper adjustment of	To be competent, the user/individual on the job must be able to: PC14. Ensure that the conveyor belt is emptied out before stopping PC15. Ensure that hot material does not come in contact with conveyor belt

deflector plate, gate and after feeding equipments	PC16. Ensure that no other persons move on the conveyor gallery other than the operators PC17. Inform supervisor of any problems while operating the Conveyor Belt
Element	Knowledge and Understanding
B. Organisational Context (Knowledge of the Company/ Organisation and its processes)	The user/individual on the job needs to know and understand: KA1. Job specific documents e.g. daily maintenance checklist and importance of the same KA2. Safety policy of the company KA3. Emergency preparedness of the specific work site KA4. Risk and impact of not following defined procedures/work instructions KA5. Escalation matrix for reporting identified problems KA6. Cost of equipment and loss for the company that result from damage of equipment and direct / indirect cost of accidents. KA7. Implications of delays in process to the company
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Different types of mechanical and electrical equipments and their specific use KB2. Introduction to mechanical and electrical equipments, motor and gear box their use and function KB3. Different types of pulleys, idlers etc. KB4. Principles of speed reduction on gear train KB5. Estimation of quantity/volume to be conveyed per hour for full filling the material requirement KB6. Significance of greasing and bearing of conveyor that needs routine lubrication KB7. Control cabins their location and operation KB8. Control on levers for operation of bunker/chute gates in order to load the conveyor system properly KB9. Optimal loading of belt for smooth operation with respect to time frame and schedule production KB10. Optimal load on the conveyor for rated out put KB11. Visual checks to identify damage of conveyor belt. KB12. General safety rules for moving/operating conveyor system. KB13. Dangers of starting the conveyor belts without signal/alarm KB14. Correct maintenance procedures for conveyor system KB16. Response to emergencies e.g. correct way to use fire extinguisher and other firefighting equipments
Skills (S) w.r.t. the scope	
Element	Skills
A. Core Skills/ Generic Skills	Writing skills and reading Skills The user/ individual on the job needs to know and understand how to: SA1. Writing log book for proper reporting and work Instructions in an manner that the operators can easily understand the process requirements and process steps SA2. Create small notes/ work documents/ diagrams for supervisors ,operators and

	helpers to help them understand the process SA3. Use emails and other business correspondence methods (internal memos, circular etc.) for communicating with other team members/ vendors/ suppliers etc. in English, Hindi and Local Language (E/H/LL) SA4. Read equipment manuals and process documents given by the equipment supplier to understand the equipment and processes better
	Oral Communication (Listening and Speaking skills)
	The user/individual on the job needs to know and understand how to: SA5. Effectively explain supervisors, operators and helpers about equipment operations, process steps and other operational requirements SA6. Answer the queries raised by the operative team as well as intercompany departments SA7. Effectively communicate with the operators and helpers and make them aware of work expectations, targets, policies, processes etc. SA8. ISC/N0917: Perform basic maintenance and troubleshooting on conveyor belt system

Overview

This NOS unit is all about performing basic maintenance and troubleshooting on conveyor belt system

Unit Code	ISC/N0917
Unit Title (Task)	Perform basic maintenance and troubleshooting on conveyor belt system
Description	This unit is about performing routine maintenance and troubleshooting tasks on the conveyor belt systems and other driving equipments
Scope	This OS unit/task covers the following: - Routine maintenance as per daily check schedule/troubleshooting, periodical maintenance as per company procedures/guidelines - Major conveyor system maintenance including belt changing during major shutdown of production unit
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Routine Maintenance	To be a competent, the user/individual on the job must also be able to: PC1. Understand proper operating/loading of conveyor belt to assess the right maintenance schedule PC2. Clean conveyor gallery and walkway PC3. Clean stair cases, hand railings for safe movement PC4. Drain tail end pulley pits/pumping accommodated water from the pits to avoid belt slippage PC5. Repair damaged belt joints, repair belt cuts/replace damaged portion of conveyor belt PC6. Grease all bearings, maintain lubrication oil level of all gear boxes PC7. Check all driving couplings and replace damaged components PC8. Check and replace damaged idlers, skirt plates, wear plates etc. PC9. Complete timely and legibly daily/weekly maintenance sheets as provided by the company
Major conveyor system maintenance	To be a competent, the user/individual on the job must also be able to: PC10. Ensure the conveyor belt is in good condition for operation PC11. Ensure all operating equipment are in healthy condition for smooth operation PC12. Ensure all pulley laggings are in good condition PC13. Ensure that all bunker gates are in operating condition for proper operation PC14. Assess when the problem is beyond his competence and report the problem to suitably qualified and competent personnel PC15. Complete timely and legibly daily/weekly defect sheets
Element	Knowledge and Understanding
A. Organisational Context (Knowledge of the Company/	The user/individual on the job needs to know and understand: KA1. Types of documentation in organization e.g. daily maintenance checklist and importance of the same

Organisation and its processes)	KA2. Risk and impact of not following defined procedures/work instructions KA3. Rules and regulations of work as per standard operating procedure (SOP) KA4. Risk and impact of not following company's SOP KA5. Escalation matrix for reporting identified problems KA6. Cost of delays , equipment damage and accidents for the company
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Layouts and sequence of operations of different belts from raw material yard to crushing mill (through ball mill/hammer mill/screener etc.) to service bunker. KB2. Knowledge of different mechanical equipment like gear box, driving pulleys, gravity pulley, different types of idlers (conveying and return) KB3. Knowledge of belt jointing/belt clipping/belt changing etc. KB4. Response to emergencies e.g. fire KB5. Safety regulations while operating the conveyor system
Skills (S) w.r.t. the scope	
Element	Skills
A. Core Skills/ Generic Skills	Writing skills and reading Skills The user/ individual on the job needs to know and understand how to: SA1. Create first level process manuals, Control Plans, Work Instructions in an manner that the operators can easily understand the process requirements and process steps SA2. Create small notes/ work documents/ diagrams for supervisors ,operators and helpers to help them understand the process in English, Hindi and Local Language (E/H/LL) SA3. Use emails and other business correspondence methods (internal memos, circular etc.) for communicating with other team members/ vendors/ suppliers etc. SA4. Read equipment manuals and process documents given by the equipment supplier to understand the equipment and processes better Oral Communication (Listening and Speaking skills) The user/individual on the job needs to know and understand how to: SA5. Effectively explain supervisors, operators and helpers about equipment operations, process steps and other operational requirements SA6. Answer the queries raised by the operative team as well as intercompany departments SA7. Effectively communicate with the operators and helpers and make them aware of work expectations, targets, policies, processes etc. SA8. Discuss task lists, schedules, and work-loads with the operative team members SA9. Attentively listen with full attention the queries and grievances raised by the operative team and comprehend the information given by the speaker Integrity The user/individual on the job needs to know and understand how to: SA10. Maintain integrity with respect to company property and time

	SA11. Communicate with people in a polite manner using respectful language SA12. Resolve difficulties in relationships with colleagues amicably
	Motivation
	The user/individual on the job needs to know and understand how to: SA13. Take responsibility for completing one's own work assignment SA14. Take initiative to enhance/learn skills in one's area of work SA15. Reflect and act upon one's learning from experience
B. Professional Skills	Time Management
	The user/individual on the job needs to know and understand how to: SB1. Prioritize and execute tasks within the scheduled time limits
	Analytical Thinking
	The user/individual on the job needs to know and understand how to: SB2. Suggest methods to avoid accidents/errors while operating Conveyor Belt SB3. Identify possible ways to improve operational efficiency
	Reliability
	The user/individual on the job needs to know and understand how to: SB4. Avoid absenteeism and maintain quality of work SB5. Work in a disciplined environment and adhere to working norms of the organisation SB6. Be punctual and adhere to timelines
	Organizational Skills
	The user/individual on the job needs to know and understand how to: SB7. Adjust according to capacity and manpower needs during peak and non-peak hours SB8. Be a team player and achieve collective goals SB9. Concentrate on task at hand and complete it without errors SB10. Ensure adequate knowledge sharing with supervisors and subordinates

ISC/N1005: Carry out reporting and documentation

National Occupational Standards

Overview

This unit is about reporting and documentation

Unit Code	ISC/N1005
Unit Title (Task)	Carry out reporting and documentation
Description	This unit is about carrying out reporting and documentation
Scope	This unit/task covers the following: - Reporting of data/problem/incidents etc. - Ensuring Recording and Documentation - Ensuring Information Security
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Reporting	To be competent, the user/individual on the job must be able to: PC1. Report data/problems/incidents as applicable in a timely manner PC2. Report to the appropriate authority as laid down by the company PC3. Follow reporting procedures as prescribed by the company
Recording and Documentation	To be competent, the user/individual on the job must be able to: PC4. Identify documentation to be completed relating to one's role PC5. Record details accurately in appropriate format PC6. Complete all documentation within stipulated time according to company procedure PC7. Ensure that the final document meets with the requirements of the persons who requested it or make any amendments accordingly PC8. Make sure documents are available to all appropriate authorities to inspect
Information Security	To be competent, the user/individual on the job must be able to: PC9. Respond to requests for information in an appropriate manner whilst following organizational procedures PC10. Inform the appropriate authority of requests for information received
Element	Knowledge and Understanding
A. Technical Knowledge	The user/individual on the job needs to know and understand: KA1. Different methods of recording information KA2. Various documents that need to be maintained KA3. Company procedure for filling/maintaining up the documents KA4. Procedures for reporting to the appropriate authority KA5. Procedures for recording damage, breakages etc. KA6. Reporting incidents where standard operating procedures are not followed KA7. The importance of complete and accurate documentation KA8. How to maintain complete documentation accurately and within agreed timescales KA9. The importance of ensuring that the documents are correct KA10. The actions to be taken if the documents are not correct

	KA11. The importance of maintaining the security and confidentiality of recorded information KA12. Procedures to maintain confidentiality of information KA13. The appropriate method for responding to requests for information KA14. The reporting procedures to followed before disclosing information to any outside party
Skills (S) w.r.t. the scope	
Element	Skills
A. Core Skills/ Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to:
	SA1. Construct simple sentences and express ideas clearly through written communication
	SA2. Fill up appropriate technical forms, process charts, activity logs in required format of the company
	SA3. Write simple letters, mails, etc.
	SA4. Perform functional mathematical operations, including apply basic mathematical principles, such as numbers and space, and techniques such as estimation and approximation, for practical purposes
	Reading and Understanding Skills
	The user/individual on the job needs to know and understand how to:
	SA5. Read and understand manuals, health and safety instructions, memos, reports, job cards etc.
	SA6. Read and interpret engineering and tool drawings
	Oral Communication (Listening and Speaking skills)
	The user/individual on the job needs to know and understand how to:
	SA7. Express statements, opinions or information clearly so that others can hear and understand
	SA8. Respond appropriately to any queries
	SA9. Communicate with supervisor
	SA10. Communicate with upstream and downstream teams
	SA11. Work in a team and other behavioural skills required to support the small group activities (Quality Circle, Cross Functional Team, Suggestion Scheme)
	Integrity
	The user/individual on the job needs to know and understand how to:
	SA12. Practice honesty with respect to company property and time
	SA13. Communicate with people in a form and manner and using language that is open and respectful
	SA14. Resolve any difficulties in relationships with colleagues , or get help from an appropriate person, in a way that preserves goodwill and trust
	Motivation
	The user/individual on the job needs to know and understand how to:
	SA15. Take responsibility for completing one's own work assignment

	SA16. Take initiative to enhance/learn skills in others area of work
	SA17. The capacity to learn from experience in a range of settings and scenarios and the capacity to reflect on and analyse one's learning.
	SA18. Is open to new ways of doing things
	SA19. The capacity to envisage and articulate personal goals; to develop strategies and take action to achieve them.
	Reliability
	The user/individual on the job needs to know and understand how to:
	SA20. Avoid absenteeism and maintain quality of work
	SA21. Work in a disciplined environment and adhere to working norms of the organisation
	SA22. Be punctual and adhere to timelines

ISC/N0008: Use basic health and safety practices at the workplace

National Occupational Standards

Overview

This unit covers health, safety and security at the workplace. This includes procedures and practices that candidates need to follow to help maintain a healthy, safe and secure work environment.

Unit Code	ISC/N0008
Unit Title (Task)	Use basic health and safety practices at the workplace
Description	This OS unit is about knowledge and practices relating to health, safety and security that candidates need to use in the workplace. It covers responsibilities towards self, others, assets and the environment. It includes understanding of risks and hazards in the workplace, along with common techniques to minimize risk, deal with accidents, emergencies, etc.
Scope	This unit/task covers the following: • Health and safety procedures • Fire safety procedures • Emergencies, rescue and first aid procedures
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Health and safety procedures	The user/individual on the job should be able to: PC1. Use protective clothing/equipment for specific tasks and work conditions Protective clothing includes: • Leather or asbestos gloves • Flame proof aprons • Flame proof overalls buttoned to neck • Cuff less (without folds) trousers • Reinforced footwear • Helmets/hard hats • Cap and shoulder covers • Ear defenders/plugs • Safety boots • Knee pads • Particle masks • Glasses/gloves/visors Equipment includes: • Hand shields • Machine guards • Residual current devices • Shields • Dust sheets • Respirator PC2. State the name and location of people responsible for health and safety in the

	workplace Various areas are listed below: • On chemical containers • Equipment • Packages • Inside buildings • Open areas, public places etc. PC3. State the names and location of documents that refer to health and safety in the workplace PC4. Identify job-site hazardous work and state possible causes of risk or accident in the workplace Hazards include: • Working with electrical and thermal tools and equipment • Sharp edged and heavy tools • Heated metals • Oxyfuel and gas cylinders • Welding radiation • Surfaces: sharp, slippery, uneven, chipped, broken, etc. • Substances: chemicals, gas, oxy-fuel, fumes, dust, etc. • Physical: working at heights, large and heavy objects and machines, sharp and piercing objects, tolls and machines, intense light, load noise, obstructions in corridors, by doors, blind turns, noise, over stacked shelves and packages, etc. • Electrical: power supply and points, loose and naked cables and wires, electrical machines and appliances, etc. PC5. Carry out safe working practices while dealing with hazards to ensure the safety of self and others state methods of accident prevention in the work environment of the job role Safe working practices include: • Using protective clothing and equipment • Putting up and reading safety signs • Handle tools in the correct manner and store and maintain them properly • Keep work area clear of clutter, spillage and unsafe object lying casually • While working with electricity take all electrical precautions like insulated clothing, adequate equipment insulation, use of control equipment, dry work area, switch off the power supply when not required, etc. • Safe lifting and carrying practices • Use equipment that is working properly and is well maintained • Take due measures for safety while working in confined places, trenches or at heights, etc. Including safety harness, fall arrestors etc. Methods are: • Training in health and safety procedures • Using health and safety procedures • Use of equipment and working practices (such as safe carrying procedures) • Safety notices, advice
--	---

	• Instruction from colleagues and supervisors PC6. State location of general health and safety equipment in the workplace PC7. Inspect for faults, set up and safely use steps and ladders in general use Faults : • Corrosion of metal components • Deterioration • Splits and cracks timber components • Imbalance • Loose rungs • Nuts or bolts, etc. Set up: • Firm/level base • Clip/lash down • Leaning at the correct angle, etc. PC8. Work safely in and around trenches, elevated places and confined areas PC9. Lift heavy objects safely using correct procedures PC10. Apply good housekeeping practices at all times. Good housekeeping practices: • Clean/tidy work areas • Removal/disposal of waste products • Protect surfaces PC11. Identify common hazard signs displayed in various areas PC12. Retrieve and/or point out documents that refer to health and safety in the workplace
Fire safety procedures	The user/individual on the job should be able to: PC13. Use the various appropriate fire extinguishers on different types of fires correctly. Fire extinguishers: • Sand • Water • Foam • Co2 • Dry powder Fires: • Class A: Ordinary solid combustibles, e.g. wood, paper, cloth, plastic, charcoal etc. • Class B: Flammable liquids and gases, e.g. gasoline, propane, diesel fuel, tar, cooking oil and similar substances • Class C: Electrical equipment e.g. appliances, wiring, breaker panels etc. (these categories of fires become Class A, B, and D fires when the electrical equipment that initiated the fire is no longer receiving electricity) • Class D: Combustible metals such as magnesium, titanium, and sodium (these fires burn at extremely high temperatures and require special suppression agents) Causes of fires:

	• Heating of metal • Spontaneous ignition • Sparking, • Electrical heating • Loose fires (e.g. Smoking, welding, etc.) • Chemical fires, etc. PC14. Demonstrate rescue techniques applied during fire hazard PC15. Demonstrate good housekeeping in order to prevent fire hazards PC16. Demonstrate the correct use of a fire extinguisher
Emergencies, rescue and first-aid procedures	The user/individual on the job should be able to: PC17. Demonstrate how to free a person from electrocution PC18. Administer appropriate first aid to victims as required e.g. in case of bleeding, burns, choking, electric shock, poisoning etc. PC19. Demonstrate basic techniques of bandaging PC20. Respond promptly and appropriately to an accident situation or medical emergency in real or simulated environments. Few general health and safety equipment are mentioned below : • Fire extinguishers • First aid equipment • Safety instruments and clothing • Safety installations, e.g. Fire exits, exhaust fans etc. PC21. Perform and organize loss minimization or rescue activity during an accident in real or simulated environments PC22. Administer first aid to victims in case of a heart attack or cardiac arrest due to electric shock, before the arrival of emergency services in real or simulated cases PC23. Demonstrate the artificial respiration and the CPR Process PC24. Participate in emergency procedures. Emergency procedures are: • Raising alarm • Safe/efficient evacuation • Correct means of escape • Correct assembly point • Roll call • Correct return to work PC25. Complete a written accident/incident report or dictate a report to another person, and send report to person responsible Incident Report should capture: • Name • Date/time of incident • Date/time of report, • Location • Environment conditions • Persons involved • Sequence of events • Injuries sustained • Damage sustained • Actions taken

	• Witnesses • Supervisor/manager notified Documents: • Fire notices • Accident reports • Safety instructions for equipment and procedures • Company notices and documents • Legal documents (e.g. Government notices) Job titles: • Health and safety officer • First aid officer • Fire officer PC26. Demonstrate correct method to move injured people and others during an emergency
Element	Knowledge and Understanding
A. Organisational Context (Knowledge of the Company/ Organisation and its processes)	The user/individual on the job needs to know and understand: KA1. State the names (and job titles if applicable), and describe where to find, all the people responsible for health and safety in a workplace KA2. State the names and location of documents that refer to health and safety in the workplace
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB3. Meaning of “hazards” and “risks” KB4. Health and safety hazards commonly present in the work environment and related precautions KB5. Possible causes of risk, hazard or accident in the workplace and why risk and/or accidents are possible KB6. Activities and causes of risk and accident KB7. Methods of accident prevention KB8. Safe working practices when working with tools and machines KB9. Safe working practices while working at various hazardous sites KB10. Where to find all the general health and safety equipment in the workplace KB11. Various dangers associated with the use of electrical equipment KB12. Preventative and remedial actions to be taken in the case of exposure to toxic materials • Exposure: ingested, contact with skin, inhaled • Preventative action: ventilation, masks, protective clothing/equipment • Remedial action: immediate first aid, report to supervisor • Materials: solvents, flux, lead KB13. Importance of using protective clothing/equipment while working KB14. Precautionary activities to prevent the fire accident Activities and causes: • Physical actions • Reading

	• Listening to and giving instructions • Inattention • Sickness and incapacity (e.g. Drunkenness) • Health hazards (e.g. Untreated injuries and contagious illness) KB15. Various causes of fire KB16. Techniques of using the different fire extinguishers KB17. Different methods of extinguishing fire KB18. Rescue techniques applied during a fire hazard KB19. Various types of safety signs and what they mean KB20. Appropriate basic first aid treatment relevant to the condition e.g. Shock, electrical shock, bleeding, breaks to bones, minor burns, resuscitation, poisoning, eye injuries KB21. Content of written accident report KB22. Potential injuries and ill health associated with incorrect manual handling KB23. Safe lifting and carrying practices KB24. Personal safety, health and dignity issues relating to the movement of a person by others KB25. Potential impact to a person who is moved incorrectly
Skills (S) w.r.t. the scope	
Element	Skills
A. Core Skills/ Generic Skills	Reading and Writing Skills
	The user/individual on the job needs to know and understand how to: SA1. Read and comprehend basic content to read labels, charts, signage's SA2. Read and comprehend basic English to read manuals of operations SA3. Read and write an accident/incident report in local language or English
	Oral Communication (Listening and Speaking skills)
	The user/individual on the job needs to know and understand how to: SA4. Question co-workers appropriately in order to clarify instructions and other issues SA5. Give clear instructions to co-workers, subordinates others
	Decision Making
	The user/individual on the job needs to know and understand how to: SA6. Make appropriate decisions pertaining to the concerned area of work with respect to intended work objective, span of authority, responsibility, laid down procedure and guidelines
B. Professional Skills	Plan and Organize
	The user/individual on the job needs to know and understand: SB1. Plan and organize their own work schedule, work area, tools, equipment and materials to maintain decorum and for improved productivity

	Working with others
	The user/individual on the job needs to know and understand how to: SB2. Remain congenial while discussing and debating issues with co-workers SB3. Follow appropriate protocols for communication based on situation, hierarchy, organizational culture and practice SB4. Ask for, provide and receive required assistance where possible to ensure achievement of work related objectives SB5. Thank co-workers for any assistance received SB6. Offer appropriate respect based on mutuality and respect for fellow workmanship and authority
	Problem Solving
	The user/individual on the job needs to know and understand how to: SB7. Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s) SB8. Identify immediate or temporary solutions to resolve delays SB9. Identify sources of support that can be availed of for problem solving for various kind of problems SB10. Seek appropriate assistance from other sources to resolve problems SB11. Report problems that you cannot resolve to appropriate authority
	Analytical Thinking
	The user/individual on the job needs to know and understand how to: SB12. Identify cause and effect relations in their area of work SB13. Use cause and effect relations to anticipate potential problems and their solution

ISC/N0009: Works effectively with others

National Occupational Standards

Overview

This unit covers basic practices that improve effectiveness of working with others in an organisational set-up.

Unit Code	ISC/N0009
Unit Title (Task)	Works effectively with others
Description	This unit covers basic etiquette and competencies that a candidate is required to possess and demonstrate in their behaviour and interactions with others at the workplace.
Scope	This unit/task covers the following: - Ensure appropriate communication with superiors, peers and others as applicable at work place - Demonstrate appropriate behaviour and etiquette at work place
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Ensure appropriate communication with superiors, peers and others as applicable at work place	The user/individual on the job should be able to: PC1. Accurately receive information and instructions from the supervisor and fellow workers, getting clarification where required PC2. Accurately pass on information to authorized persons who require it and within agreed timescale and confirm its receipt PC3. Provide information to others clearly, at a pace and in a manner that helps them to understand
Demonstrate appropriate behaviour and etiquette at work place	The user/individual on the job should be able to: PC4. Display helpful behaviour by assisting others in performing tasks in a positive manner, where required and possible PC5. Consult with and assist others to maximize effectiveness and efficiency in carrying out tasks PC6. Display appropriate communication etiquette while working PC7. Display active listening skills while interacting with others at work PC8. Use appropriate tone, pitch and language to convey politeness, assertiveness, care and professionalism PC9. Demonstrate responsible and disciplined behaviours at the workplace PC10. Escalate grievances and problems to
Element	Knowledge and Understanding
A. Organisational Context (Knowledge of the Company/ Organisation and its processes)	The user/individual on the job needs to know and understand: KA1. Legislation, standards, policies, and procedures followed in the company relevant to own employment and performance conditions KA2. Reporting structure, inter-dependent functions, lines and procedures in the work area KA3. Relevant people and their responsibilities within the work area KA4. Escalation matrix and procedures for reporting work and employment related

	issues
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Various categories of people that one is required to communicate and co-ordinate with in the organization KB2. Importance of effective communication in the workplace KB3. Importance of teamwork in organizational and individual success KB4. Various components of effective communication KB5. Key elements of active listening KB6. Value and importance of active listening and assertive communication KB7. Barriers to effective communication KB8. Importance of tone and pitch in effective communication KB9. Importance of avoiding casual expletives and unpleasant terms while communicating professional circles KB10. How poor communication practices can disturb people, environment and cause problems for the employee, the employer and the customer KB11. Importance of ethics for professional success KB12. Importance of discipline for professional success KB13. What constitutes disciplined behaviour for a working professional KB14. Common reasons for interpersonal conflict KB15. Importance of developing effective working relationships for professional success KB16. Expressing and addressing grievances appropriately and effectively KB17. Importance and ways of managing interpersonal conflict effectively

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role: Conveyor Operation and Maintenance

Qualification Pack: ISC/Q0902

Sector Skill Council: Indian Iron & Steel Sector Skill Council

Guidelines for Assessment:

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criteria.
5. To pass the Qualification Pack, every trainee should score a minimum of 60% in every NOS.
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.

NOSs	PCs	Marks Allocated			
		Total Marks 1000	Out Of	Theory	Practical
ISC/N0915: Inspection of total conveyor system along with operating equipments	PC1. Adhere to time limits given by supervisor	250	15	5	10
	PC2. Check oil levels of gear box and prime movers with couplers, driving pulleys		15	5	10
	PC3. Check driving pulleys with lagging		15	5	10
	PC4. Check the belt conveyor for any damages and belt joints		15	5	10
	PC5. Check condition of conveying and return side idlers		15	5	10
	PC6. Check the cleanliness of conveyor gallery and conveyor deck		15	5	10
	PC7. Check position of gravity pulleys		15	5	10
	PC8. Check feeding chutes with wire plates		15	5	10
	PC9. Check operation of gates		15	5	10

	PC10. Check all shuttle belts with trolley etc.		15	5	10
	PC11. Check the level of bunkers to be filled		15	5	10
	PC12. Apply grease to all bearings		15	5	10
	PC13. Ensure the raw material stock at bunker and yard		15	5	10
	PC14. Keep all conveyor gallery and stair cases clean and free from mud, spillage and other foreign materials		15	5	10
	PC15. Ensure proper illumination of all work area/transfer chutes		15	5	10
	PC16. Check all safety switches as per schedule		5	0	5
	PC17. Report defects precisely to the supervisor if beyond scope of his role		5	0	5
	PC18. Maintain a checking/maintenance logbook to record all activities performed before starting the conveyor system		15	5	10
		Total	250	80	170
ISC/N0916: Start conveyor belt operation	PC1. Study the log book and organize the job according to requirement	200	10	5	5
	PC2. Inspect the worksite to identify cleanliness of the conveyor gallery, walkway and stair cases.		5	0	5
	PC3. Start the conveyor on no-load condition using the pushbutton switch for conveyor sequence operation		10	0	10
	PC4. Adjust feeding mechanism for optimum loading of conveyor		10	0	10
	PC5. Ensure the main bunker is filled up to the required level for safe operation		15	5	10
	PC6. Ensure after filling to specific volume of main bunker the transit bunkers gates to be closed slowly for emptying out the belt		15	5	10
	PC7. Adhere to time limits given by supervisor		15	5	10
	PC8. Perform in-operation visual checks on bunker level depending on the requirement for smooth operation		15	5	10

	PC9. Select and use the right type of operation for proper feeding of the conveyor belt		10	0	10
	PC10. Ensure that conveyor gallery and walkway are free from all hazards for starting the belt operation		10	0	10
	PC11. Utilize judiciously various communicating devices available in the conveyor gallery and control cabin		15	5	10
	PC12. Ensure that the belt operation is safe from all hazards by raising appropriate signal/alarm		10	0	10
	PC13. Ensure that the dust extraction/suppression system is working properly during the belt operation		15	5	10
	PC14. Ensure that the conveyor belt is emptied out before stopping.		10	0	10
	PC15. Ensure that hot material does not come in contact with conveyor belt.		10	0	10
	PC16. Ensure that no other persons move on the conveyor gallery other than the operators		15	5	10
	PC17. Inform supervisor of any problems while operating the Conveyor Belt		10	0	10
		Total	200	40	160
ISC/N0917: Perform basic maintenance and troubleshooting on conveyor belt system	PC1. Understand proper operating/loading of conveyor belt to assess the right maintenance schedule	150	10	5	5
	PC2. Clean conveyor gallery and walkway		10	0	10
	PC3. Clean stair cases, hand railings for safe movement		10	0	10
	PC4. Drain tail end pulley pits/pumping accommodated water from the pits to avoid belt slippage		10	0	10
	PC5. Repair damaged belt joints, repair belt cuts/replace damaged portion of conveyor belt		10	0	10
	PC6. Grease all bearings, maintain lubrication oil level of all gear boxes		10	5	5
	PC7. Check all driving couplings and replace damaged components		10	0	10

	PC8. Check and replace damaged idlers, skirt plates, wear plates etc.		10	0	10
	PC9. Complete timely and legibly daily/weekly maintenance sheets as provided by the company		10	5	5
	PC10. Ensure the conveyor belt is in good condition for operation		10	5	5
	PC11. Ensure all operating equipment are in healthy condition for smooth operation		10	0	10
	PC12. Ensure all pulley laggings are in good condition		10	0	10
	PC13. Ensure that all bunker gates are in operating condition for proper operation		10	5	5
	PC14. Assess when the problem is beyond his competence and report the problem to suitably qualified and competent personnel		10	5	5
	PC15. Complete timely and legibly daily/weekly defect sheets		10	0	10
	Total		150	30	120
ISC/N1005: Carry out reporting and documentation	PC1. Report data/problems/incidents as applicable in a timely manner	150	15	5	10
	PC2. Report to the appropriate authority as laid down by the company		15	5	10
	PC3. Follow reporting procedures as prescribed by the company		15	5	10
	PC4. Identify documentation to be completed relating to one's role		15	5	10
	PC5. Record details accurately in appropriate format		15	5	10
	PC6. Complete all documentation within stipulated time according to company procedure		10	0	10
	PC7. Ensure that the final document meets with the requirements of the persons who requested it or make any amendments accordingly		20	5	15
	PC8. Make sure documents are available to all appropriate authorities to inspect		15	5	10

	PC9. Respond to requests for information in an appropriate manner whilst following organizational procedures		15	5	10
	PC10. Inform the appropriate authority of requests for information received		15	5	10
		Total	150	45	105
ISC/N0008: Use basic health and safety practices at the workplace	PC1. Use protective clothing/equipment for specific tasks and work conditions	150	9	4	5
	PC2. State the name and location of people responsible for health and safety in the workplace		6	1	5
	PC3. State the names and location of documents that refer to health and safety in the workplace		2	1	1
	PC4. Identify job-site hazardous work and state possible causes of risk or accident in the workplace		8	4	4
	PC5. Carry out safe working practices while dealing with hazards to ensure the safety of self and others state methods of accident prevention in the work environment of the job role		6	1	5
	PC6. State location of general health and safety equipment in the workplace		6	1	5
	PC7. Inspect for faults, set up and safely use steps and ladders in general use		6	1	5
	PC8. Work safely in and around trenches, elevated places and confined areas		6	1	5
	PC9. Lift heavy objects safely using correct procedures		6	1	5
	PC10. Apply good housekeeping practices at all times		2	1	1
	PC11. Identify common hazard signs displayed in various areas		6	5	1
	PC12. Retrieve and/or point out documents that refer to health and safety in the workplace		5	1	4
	PC13. Use the various appropriate fire extinguishers on different types of fires correctly		9	4	5

PC14. Demonstrate rescue techniques applied during fire hazard	8	4	4
PC15. Demonstrate good housekeeping in order to prevent fire hazards	2	1	1
PC16. Demonstrate the correct use of a fire extinguisher	6	1	5
PC17. Demonstrate how to free a person from electrocution	6	1	5
PC18. Administer appropriate first aid to victims as required e.g. in case of bleeding, burns, choking, electric shock, poisoning etc.	8	3	5
PC19. Demonstrate basic techniques of bandaging	6	1	5
PC20. Respond promptly and appropriately to an accident situation or medical emergency in real or simulated environments	7	2	5
PC21. Perform and organize loss minimization or rescue activity during an accident in real or simulated environments	6	1	5
PC22. Administer first aid to victims in case of a heart attack or cardiac arrest due to electric shock, before the arrival of emergency services in real or simulated cases	6	1	5
PC23. Demonstrate the artificial respiration and the CPR Process	6	1	5
PC24. Participate in emergency procedures	6	1	5
PC25. Complete a written accident/incident report or dictate a report to another person, and send report to person responsible	4	1	3
PC26. Demonstrate correct method to move injured people and others during an emergency	2	1	1
Total	150	45	105

ISC/N0009: Works effectively with others	PC1. Accurately receive information and instructions from the supervisor and fellow workers, getting clarification where required	100	10	5	5
	PC2. Accurately pass on information to authorized persons who require it and within agreed timescale and confirm its receipt		10	5	5
	PC3. Provide information to others clearly, at a pace and in a manner that helps them to understand		10	0	10
	PC4. Display helpful behaviour by assisting others in performing tasks in a positive manner, where required and possible		10	5	5
	PC5. Consult with and assist others to maximize effectiveness and efficiency in carrying out tasks		10	5	5
	PC6. Display appropriate communication etiquette while working		10	0	10
	PC7. Display active listening skills while interacting with others at work		10	0	10
	PC8. Use appropriate tone, pitch and language to convey politeness, assertiveness, care and professionalism		10	5	5
	PC9. Demonstrate responsible and disciplined behaviours at the workplace		15	5	10
	PC10. Escalate grievances and problems to supervisor		5	0	5
	Total		100	30	70
