**Definitions**

| Keywords /Terms                       | Description                                                                                                                                                                                                                                                                        |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Core Skills/Generic Skills            | Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the NOS, these include communication related skills that are applicable to most job roles. |
| Function                              | Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of NOS.                            |
| Job role                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organization.                                                                                                                                                                  |
| Knowledge and Understanding           | Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.                                                                |
| National Occupational Standards (NOS) | NOS are Occupational Standards which apply uniquely in the Indian context                                                                                                                                                                                                          |
| Occupation                            | Occupation is a set of job roles, which perform similar/related set of functions in an industry.                                                                                                                                                                                   |
| Organisational Context                | Organisational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                   |
| Performance Criteria                  | Performance Criteria are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                           |
| Qualifications Pack(QP)               | Qualifications Pack comprises the set of NOS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.                                                                       |
| Qualifications Pack Code              | Qualifications Pack Code is a unique reference code that identifies a qualifications pack.                                                                                                                                                                                         |
| Scope                                 | Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.                                                                        |
| Sector                                | Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                      |

| Sub-Sector          | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Sub-functions       | Sub-functions are sub-activities essential to fulfil the achieving the objectives of the function.                          |
| Technical Knowledge | Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                    |
| Unit Code           | Unit Code is a unique identifier for a NOS unit, which can be denoted with an 'N'.                                          |
| Unit Title          | Unit Title gives a clear overall statement about what the incumbent should be able to do.                                   |
| Vertical            | Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry. |
| Keywords /Terms     | Description                                                                                                                 |
| NOS                 | National Occupational Standard(s)                                                                                           |
| NSQF                | National Skills Qualifications Framework                                                                                    |

| Description                                                                           | This unit covers the steps required for operation of housekeeping with mechanised equipment.                                                                                                                                                                                                                                                                                                                                                                                        |
| Scope                                                                                 | <p>This unit/task covers the following:</p> <ul style="list-style-type: none"> <li>Check the handling equipment before starting the operation</li> <li>Plan to stack the material at the desired location as per company procedure</li> <li>Prepare the working area within the timeframe for maintaining the production schedule</li> </ul>                                                                                                                                        |
| Performance Criteria (PC) w.r.t. the Scope                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Element                                                                               | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Check the handling equipment before starting the operation                            | <p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. Check the mechanised equipments to be used for the housekeeping/cleaning operation before starting the assigned job</p> <p>PC2. Check the components for the mechanised equipments e.g. engine, controls, brake system, lighting, lubricants, vacuum system, water pressure etc. before starting the assigned job</p> <p>PC3. Check necessary tackles to be used is in proper working condition</p> |
| Plan to stack the material at the desired location as per company procedure           | <p>To be competent, the user/individual on the job must be able to:</p> <p>PC4. Stack the material (iron scraps, dusts, slags and debris) on the desired location as per company procedure</p>                                                                                                                                                                                                                                                                                      |
| Prepare the working area within the timeframe for maintaining the production schedule | <p>To be competent, the user/individual on the job must be able to:</p> <p>PC5. Prepare the working area for proper housekeeping to achieve the scheduled production target</p> <p>PC6. Prepare necessary equipment and tackles to be used for housekeeping job within scheduled time for achieving the production target</p>                                                                                                                                                       |
| Element                                                                               | Knowledge and Understanding                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| A. Organisational Context (Knowledge of the Company/ Organisation and its processes)  | <p>The user/individual on the job needs to know and understand:</p> <p>KA1. Job specific documents e.g. daily maintenance checklist and importance of the same</p> <p>KA2. Safety policy of the company</p> <p>KA3. Emergency organisation of the specific work site</p>                                                                                                                                                                                                            |

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

ISC/N0429: Carry out the assigned job of housekeeping with mechanised equipment

---

# National Occupational Standards

---

## Overview

This unit covers the housekeeping operation carried out by using mechanised equipments within given time schedule.

|                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

ISC/N0008: Use basic health and safety practices at the workplace

---

# National Occupational Standards

---

## Overview

This unit covers health, safety and security at the workplace. This includes procedures and practices that candidates need to follow to help maintain a healthy, safe and secure work environment.

**CRITERIA FOR ASSESSMENT OF TRAINEES**

Job Role: House Keeping with Mechanised Equipment

Qualification Pack: ISC/Q0408

Sector Skill Council: Indian Iron & Steel Sector Skill Council

**Guidelines for Assessment:**

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criteria.
5. To pass the Qualification Pack, every trainee should score a minimum of 60% in every NOS.
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.
